

SUPERKLENE 200

PRODUCT DESCRIPTION

Superklene 200 is a stable powder designed for tropical and subtropical climates, formulated with chlorine-releasing agents and complex polyphosphates. It activates hypochlorite bleaching upon dissolving in water, offering safer use than pure hypochlorite. The combination provides water softening and optimal pH for efficient bleaching, while preventing fabric damage from spillage, reducing the need for linen replacements.

| | Units | BCI Specifications |
|------------------|-------|--------------------|
| Appearance | - | White powder |
| Density | Kg/L | 0.8 – 1.0 |
| PH 0.5% solution | - | 10.5 – 12.0 |

All technical data stated in this TDS are based on our actual laboratory analysis.

USAGE GUIDE FOR 45 KG DRY WEIGHT FABRIC

- Optimum bleaching conditions are achieved with 125 gms of SUPERKLENE 200 per 45 to 50 kg.
- Dry weight fabric, for a minimum of 5 minutes at temperature not exceeding 60°.

ECOLOGY, HEALTH & SAFETY

For more information on the safe handling, storage conditions, and disposal of chemical products, please refer to the most recent Safety Data Sheet (SDS).

AVAILABLE PACKAGING

- 25 KG Bag

DISCLAIMER

All sales by BCI, its subsidiaries, or affiliates "seller", are governed by the seller's standard terms and conditions of sale, available upon request unless otherwise agreed in writing. While information and recommendations regarding product application and end use are provided in good faith based on current knowledge and experience, the seller makes no warranty, express or implied, regarding merchantability, fitness for a particular purpose, or liability arising from use.

Customers must evaluate the suitability of the product for their intended application, ensure compliance with third-party proprietary rights, and refer to the most recent product Datasheet, available on our site or upon request, for accurate guidance.
